THE TENNESS OF THE

MINING, BUSINESS AND STOCKS.

THE OF THE PARTY O

WEEK'S BUSINESS ON THE EXCHANGE

Closed With Stocks Stronger Caused by Outside Orders.

EXCHANGE ANNUAL TODAY.

New Officers Will be Elected-During The Week Transactions Totaled 514,245 Shares for \$218,175.50.

The strength developed by some of the stocks at the call yesterday afternoon was felt to a greater extent, and sales were not extensively made there was a decided improvement in the rulmarket has a little better tone at the end of this week and if some comparatively worthless stocks are not boosted to the skies by broker cliques and if official reports are conservative, there seems to be no reason why steady improvement should not be manifested by the market. The need of an outside element, of public interest in the ex-change, is certainly evident and if by good management public confidence is restored no one will have cause to complain about duliness nor of hard times.

During the morning call transactions involved 31,950 shares and \$18,521.50 were recorded. For the week ending today a total business of 514,245 shares calling for \$218,175.50 was transacted.

calling for \$218,175.50 was transacted.

In the trading this morning some of the dividend payers shared heavily. Con Mercur to the extent of 2,500 shares came out for \$1.50 a share; Daly-West to the extent of 50 shares for \$27.40-\$27.50; Yankee Con., 1,200 shares for \$2.07-\$2.11, a decided improvement over yesterday's figures; and Grand Central, 100 shares for \$3.00.

The trading commenced with Aiax.

The trading commenced with Ajax, 100 shares of which was purchased for 30. Carisa on sales aggregating 3,800 shares, sold up from 38 to 41, and Star Con. rose from 27 to 281/2, selling at the May Day took a tumble from 52 to

4914, recovering to 4915 at the close and California sold as high as 37 from 34 at the opening. The stock closed at

After heavy curb sales aggregating 6,725 shares the business of the exchange closed with the following quotations recorded:

COPPER PRICE **ONLY TEMPORARY**

Eastern Investors Much Disturbed, But Situation Soon to Change.

BINGHAM CON. MANAGEMENT

Dunean McVichie Elected General Manager and E. L. White, President at Annual in Boston.

"Copper can be produced by some mines at a cost of 41/2 cents a pround," said Walter W. Wishon, superintendent more generally this morning. Though of the Speculator mine at Butte, who is in the city en route home from a trip to New York and Boston. Continuing ing prices of some of the stocks. The he said, "The Boston and Montana company can produce copper for 41/2 cents a pound, and there are others in Butte and perhaps in Utan that also can. The Calumet and Hecla can prothe mine managements see that their | duce the metal for 6 cents notwithstanding that the ore must be raised several thousand feet. As a general rule, however, the cost of production is nearly \$½ cents and this applies to some of the very largest producers. If copper decreases in price much more some of the big producers will close down, those in the Lake district first, followed perhaps by the Anaconda. In the East every one is frightened by the copper situation and it is feared that it will remain unchanged indefinitely. Among those in a position to know it Among those in a position to know it is stated that before a great while cop-per will become settled between 12 and 15 cents a pound. There is now on hand about 25,000 tons of pure copper, mostly controlled by the Amalgamated Copper company. Under the existing demand which is now on the increase since Germany, the largest user of copper, has begun to recover from its almost panic stricken condition, the surplus will soon be wiped out and the producers able to turn out copper for 10 cents will not be able to supply the demand. This will lead to a rapid recovery of the copper market and I look to see copper around 12 or 15 cents very soon."

STATELINE MINES.

A Resume of the Work Now Being Done.

The Stateline Sentinel in its last issue says of the Johnny mine: says of the Johnny mine:

The shaft is now down 250 feet and follows the vein on an incline of about 70 degrees to the north. In about 40 days the shaft will have reached the 300 foot level, from which long drifts wil be extended east and west. The bonanza ore shoot will be exposed again in the west drift and there is reason to expect that it will be as big as ever.

The east drift on the 100 level is opening up a shoot of ore of good milling grade. When this drift reaches the point of intersection of the Johnny and Utica veins the knowing ones look for a big strike.

M'VICHIE IS MANAGER. Bingham Con. Makes Important Changes in Management.

Advices from Boston state that at the annual meeting of the directors of the Bingham Consolidated Mining company held recently some most import-ant changes in the management oc-curred. To succeed President J. A. Coram, whose other business interests take so much time that he finds it impossible to remain in that capacity, E. L. White, former vice president of the American Hide and Leather company, was chosen. As general manager of the company Duncan McVichie was chosen to succeed Coionel Posey. There was only one change made in the directorate, Wm, F. Hammett of Newton. Mass., being elected to succeed D. M.

The news of the changes came as great surprise to the mining public of whose regard for the retiring president and general manager is very high However, the new management is one in whom confidence may safely be placed, and it is expected that the Bingham Con. will add much to the reputation of Utah as a great mining

EXCHANGE ANNUAL.

Reports Being Read and New Officers Elected. The Salt Lake Mining and Stock ex-

change members are this afternoon holding their annual meeting. The various reports are being read and new officers will be elected. The question of futures will probably be discussed and it is stated as highly probably that the afternoon call will be dispensed with and the curb restored.

Articles Are Filed.

The Kenneth Mining and Milling company of Ogden filed its articles of incorporation with the secretary of state this morning. The capital stock is valued at \$28,000, divided into 700,000 shares of the value of 4 cents each. The property of the company consists of the Lost Treasure Nos. 1 and 2, Charlotte Nos. 1 and 2, and the Lone Star and Lone Star No. 2 claims, situated in Willard Hill mining district. Weber county. All of the incorporators are Ogden parties and W. Mi Pierce is president, F. M. Farrell, secretary and treasurer, who, with R. A. Pierce and W. A. Hunt, constitute the board of directions.

Examine Gold Claims.

Special Correspondence. Provo, Utah, Jan. 25.—Hon. Jos. R. Murdock of Charleston, Hon. J. A. Melville of Fillmore, J. J. Knight and Prof. E. S. Hinckley of this city, have returned from a visit to a group of copper and gold claims, situated about ten miles up Little Salt Creek canyon, southeast of Juab. The claims were examined with a view of buying them and the inspection may result in a purchase of the property.

Horseshoe Property.

The cyanide mill is handling 100 tons of ore a day and making a fine extrac-The mine is in excellent shape. The lately discovered biind ledge has been opened up on the two, three and four hundred foot levels and proven to be bigger and richer than the old ledge. Supt. Gayford deserves high praise for his work. The ore reserves are very extensive and the future of the mine is assured for years to come.

Ophir Mine and Mill.

While the big mill is closed down until the new pipe line can be laid Captain Sam Clark is increasing the force in the mine and doing development work at the rate of 25 feet per day, or 750 feet per month. The new ten-drill Rand compressor gives the boys all the air they need and they are making a fine showing. The already large ore reserves are being added to daily. The mill is of 100 tons daily capacity and there is sufficient are in the mine. there is sufficient ore in the mine blocked out, sampled and measured to run it continuously for more than two years.

Work at Margaret.

Another fine strike was made in the Margaret yesterday when the big ore shoot was tapped on the 150 foot level. This shoot is now proved up for a distance of 150 feet and a depth of 175 feet and averages four feet in width. Margaret is no longer a good prospect, but it is a mine. The contractors, Suggs & Erickson, are driving down the new double compartment working shaft at a rapid rate. This will inter-sect the east ore shoot on its dip at a point 300 feet from its apex.

MINING NOTES.

The Conklin sampler was today in receipt of two cars of ore from Tintic and two cars of concentrates.

Four cars of Carissa ore arrived at the sampler this morning and will be marketed tomorrow or on Monday.

P. J. Donohue, expert on the Western Exploration company's staff, has re-

The Taylor and Brunton sampler was in receipt this morning of eight cars of ore from Tintic and one from Stock-

BUSINESS NOTES. Summers was

The week has not been an active one in local stocks, only a few in the list having been dealt in. The largest deal of the week was probably the sale of \$30,000 street railway bonds made by Broker Cutler at the price named be-low. Brokers Cutler and Burton re-port a falling off in the price of sugar stocks, both Ogden and Lehi weakening under the fear of adverse legisla-tion by Congress. The Ogden factory, too, has ended its run, and the output was considerably less than the amount expected; the report will be found in our Ogden column tonight. Co-op Wagon shaded off, as was to be expect-ed, after the payment of the three per cent special dividend, and transactions took place at \$147 and \$147.50. Follow-

ing are the latest quotations: Deseret National bank.. \$260.00

1.000 800

Total.. ... \$117,500 The Brigham Young Trust company under the energetic management of Col. N. W. Clayton as president, is about to make further and more valuable im-provements in the business center. Plans being perfected by Architect Kletting, will be out so that contracts can be let with good prospects of active building operations beginning by March

There are four new business struc-tures contemplated, to cost all told \$40,000. They will be three story, brick and stone structures for commercial purposes, divided up into stores on the ground floor and offices on the two upper stories. There will be elevators, complete steam plants and equipments generally of the most modern and most desirable description. One building 20x 40 feet, is to go up on State street at the corner of Commercial avenue, near First South street; a second 70x100 feet, will be erected on Commercial avenue e little back from State street; the third will be erected on Main street just below Godbe-Pitts drug store, 24x90 feet, and the fourth building, 40x125 feet, goes up on West Temple just north or the Tribune building. This will ma-terially increase the office accommodations of this city which have become roticeably cramped of late, so that firms which have had to move have been "hard put" to find places in which to do business. The new buildings will be of the most substantial character and valuable additions to the business

properties of the city. . . . The local management of the Wells-Fargo Express company received a circular this morning from New York, announcing the appointment of E. A. Stedman as acting manager of the Atlantic department of the Wells-Fargo company, with headquarters in New York York.

Postmaster Thomas has received a copy of the ground floor plans of the new Federal building, which is given up to the postoffice. He finds it neces-sary to recommend many changes, as the architects in Washington are fully acquainted with the needs of this city in postal matters. The postmaster remarked today that while the letting of the contract for testing the subsoil on the contract for testing the subson on the new Federal building site may not ci itself be a specially weighty matter, still it is good evidence that an actual beginning is about to be made.

Prominent business men say that business this January is an improve-ment on that of the January of the previous year.

The structure which the Z. C. M. I. is building on the top of the Main street establishment is intended to be a half story steel structure, which will relieve the monotony of the long sky line of the third story when the north end of the property has been carried up the two proposed stories.

Milford will have the first telephone exchange in Beaver county. The Tele-phone company will have twelve men at work on the first of the month stringing wires and placing instruments for immediate use.

According to Bradstreet's, Salt Lake stands twenty-eighth among the cities of the country during the closing week **BUSINESS WORLD**

New York. Jan 24.-R. G. Dunn & Co.'s Weekly Review of Trade tomorrow will say: "Little of a novel nature has developed in the business or financial situation during the past week. Conditions of the preceding week were accentuated as a rule, active manufacturing plants becoming still more busily engaged, while the downward tendency of prices was not

"Retail trade is of immense volume and jobbers have immense spring orders to fill. Western cities send the most satisfactory returns, but nearly all sections are enjoying wholesome activity, even the South showing evidences of improvement.

dences of improvement.

"Wages were voluntarily advanced at a number of manufacturing plants and hours reduced at others. There were few labor controversies, while skilled workmen are in greater demand than supply.

than supply.

"Hesitation is general in the markets for staple stocks. There is no longer the reckless buoyancy so conspicuous a short time ago. Disaster to one prom-inent operator had a calming influence, and in the case of corn the insignifi-cant exports cannot well be entirely

"Foreign buying of wheat, flour included, is much more libral, all ports of the United States sending 4,320,005 bushels during the past week, com-pared with 4,038,481 bushels a year ago. "Meats have weakened and dairy products are also less inflated. Raw sugar stiffened owing to restricted arrivals, which are natural since Cuban holders await favorable arrangements and bounty decisions affect conditions

in Europe. "Failures for the week number 301 in the United States, against 306 last year, and 28 in Canada, against 46 last year,"

BUSINESS ON A SMALL SCALE.

Showed No Important Stocks Change in Price.

RAILROADS WERE HEAVY.

Unfavorable Bank Statement Caused The Whole List to Sell on:

New York, Jan. 25 .- Stocks showed no important change in price in the opening dealings. Business was on a very small scale. The moderate buying, which for some days past set in after the opening and caused cancellation of over night losses, was lacking today. Prices yielded a substantial fraction in some prominent stocks. Amalagmated Copper declined 1% but subsequently recovered its loss. Lead was lifted 1% and the preferred 1%. Some of the active specialties stiffened before 11 o'clock, but the railroads remained heavy. Sugar rallied 1%. Glucose broke 3 and rallied. 2 The whole list sold off on the appearance of the bank statement, prices going lower than before for some leading stocks. The closing was active and easy at about the lowest.

CLOSING STOCKS.
